Work experience

PL/SQL Software Developer

Qaracter - Beyond your Challenge

Jul 2021 - Present

Madrid, Spain

Development and implementation of projects in the Back Office area of Santander Global Tech, using the PL/SQL language as a tool to satisfy user demands:
• Analysis and development of functional/technical requirements related to regulatory projects for Santander Global Tech.
• Developments in PL/SQL using SQL Developer.
• Unix Bash Scripting
• Online/Batch Processing
• Participation in UATs connecting directly with the user.
• Production support in the post-implementation phases.

FullStack Developer

Huapi Solutions

Mar 2022 - Present

Buenos Aires, Argentina

Design and development of web aplications projects working on both sides of each project (Frontend and Backend):
• Creation of responsive user interfaces using HTML, CSS, and JavaScript.
• Developed dynamic components using React for a better user experience.
• Built robust back-end servers using Node.js, managing client requests.
• Design and management of databases, such as MongoDB and MySQL.
• Collaboration in cross-functional teams to translate designs into functional code.

Education

Industrial Engineering

Universidad Nacional de La Plata

Mar 2016 - Mar 2021

Buenos Aires, Argentina
